HON. JAMES H. FOY,

A Life Long Democrat and Ex-Legislator

NOW JOINS THE POPULISTS

Present Day Democracy no Longer to Be Endured. A Few Reasons for His Actions.

From the Caucasian, Raleigh, N. C.

Jacksonville, Onslow County, N. C. Sept. 16.—I have voted the democratic ticket all my life, beginning with J. K. Polk and Geo. M. Dallas, comprising a period of about 51 years. I have been honored by the voters of my county to a seat in the legislature from 1858 to 1864, a period of six years, and was elected again in 1880, but was counted out by a canvassing board. The house however seated me at the end of the session of 1881.

For this I return to the voters of my native county—this land wherein I can exclaim in the language of the Scottish bard, "this is my own, my native land," the homage and thanks of a grateful heart.

And now with this acknowledgment I deem it just to myself and to them and to the people of my state to give my reasons for severing at this time my connection with the present organization of the democratic party and aligning myself with the people's party.

Because the so-called democratic party has left the landmarks of democracy.

Because it ignores the purity of the elective franchise and gives certificates of election to men who they know are not elected.

Because the Young Giant, the people's party, is the only party now in the United States that stands for the pure democracy of Jefferson, Monroe, Jackson and Polk; demands a lawful vote and an honest count, and upholds a free press, free speech and a free people.

Because it is in favor of the free and unlimed coinage of honest gold and silver dollars at the ratio of 16 to 1 with the mints open to both gold and silver under the law as it existed prior to 1873.

Because it opposes the present system of national banks of issue and demands that their charters shall be repealed; that the money of the government shall be issued to the people without the intervention of a national banking system.

Because it is opposed to state banks of issue and demands a currency that is good in all parts of the United States in payment of all debts public and private.

We have been like a toad under the harrow long enough. Samson lost his strength when his hair was cut. He was captured, brass fetters were put on him, both his eyes were put out and he was put in the prison house and put to grinding. But his hair grew again, he got hold of the pillars of the house and it fell. We are in Samson's fix, except only one of our eyes is put out—the silver eye.

Let the young giant, the people's party, do as Samson did—bow himself with all his might and shatter the present financial laws into flinders.

Awake, my country!

The Philstines are upon you!

Let the alliance go up and on as a servant of God and a benefactor of men.

Finally, I leave the present organization because I, in the recent democratic convention at Jacksonville, offered two resolutions: One against the national banking system and one against the issuing of gold bonds by the government, and both were voted down.

I was told that principles which I advocated had not been advocated by the democratic party.

In leaving the present democratic organization I carry with me all my democracy and all my love for all my people of all parties; but I join a party whose platform and principles better agree with mine in all respects. It is manly to differ but childish to quarrel. No personal or selfish motive influences me in my course. I am for home and country.

The gold dollar which robs the people for the benefit of bankers, bondholders and goldbugs is "an honest dollar" according to the view of the democracy of to-day, but the silver dollar that prevents the brigandage and robbery by the gold dollar and aids and protects the interests of the people is, according to the democracy of to-day, an "honest dollar." Shall we let the money power, protected by class legislation, stretch out its arms like an immense devil-fish over all parts of our country, and seize in its suffocating and deadly grasp not only the wealth of the nation, but the reins of government?

Shall we submit to this?

JAMES H. FOY.

Let every populist look well into the principles you advocate. Educate yourself so you will know just why you advocate the principles you do. In this day and time every citizen should be waking up and looking into the affairs he so long left to the care of others. Rascality in office has nearly ruined you already and your only hope is in getting a move on you at once. Wake up quick.—Comanche Exponent.

Who is the Falsifier?

J. W. Bailey has been hemmed in on every side and proved to be the rankest demagogue in North Texas. Not long since he was denouncing the boycott with all the vituperation he could command. Recently he discharged and boycotted a populist painter. His friends denied this and after it was proved a reporter of the Denton Monitor, a democratic paper, interviewed him. Bailey said: "No pop can work for me on account of their proneness to vigorous and industrious lying on me."—Industrial West Clarenden.

Gold Bugs Don't Want Him.

Chas. H. Jones has brought an injunction suit against the St. Louis Post-Dispatch company restraining the company from ousting him from the control and editorial chair of that paper. He claims to have a contract with the company by which he, Jones, in consideration of his purchasing a one-sixth interest in the paper for $60,000, cash, was to be editor and manager for five pears at a salary of $10,000 per year, provided the paper did as well, financially, as it did in '93 and '94. This it has done, Jones alleges. The directors were to meet Saturday to oust Jones and he secured a temporary injunction. The reason for the attempted removal of Jones is his advocacy of free silver in the columns of the paper. Pulitzer, who owns most of the stock and who also runs the New York World, gave editorial notice in the latter paper a few days since, that Jones must quit advocating free silver and intimated that if he did not he would be ousted.—Missouri World.

Burned to Death.

Friday evening the little nine-year-old daughter of John McCorcle living one-half mile east of Wylie was horribly burned by a kerosene explosion. The little girl was attempting to kindle a fire for the evening meal with kerosine which she was pouring from a gallon can when the explosion occurred, setting her clothing on fire and burning her in a horrible manner before the flames could be extinguished. The little victim lingered in great agony until 2 o'clock next morning when she died.

Law and Order Club of Plano.

A large number of law-abiding citizens of Plano and vicinity have organized a Law and Order Club, the purpose of which is to assist in the enforcement of the law. At the regular meeting on Sept. 19th, they voted unanimously to offer $75.00 reward for sufficient evidence to convict any person for violating the local option law of Plano, Texas. And after the first conviction other rewards will be offered for the same. The money is ready to be paid by H. C. Jones, treasurer, as soon as conviction is had.

Habeas Corpus Hearing.

A habeas corpus hearing was given Dode Bates Wednesday and Thursday of last week before Justice Faulkner in this city.

Bates was arrested by Deputy Sheriff Ham Howery of Wylie recently upon a charge of murdering an old lady named Christian near that place in July in 1892. The crime was a most diabolical and revolting one, the frail old lady being saturated with kerosene, set fire to and literally roasted to to death. The deed was shrouded in mystery but Officer Howery worked persistently on the case all this time finally arresting Bates for the crime. About twenty-five witnesses were examined during the two day's hearing which resulted in the holding of the accused in a bond of $150.

Cupid's Capers.

Dissenting parents were as usual successfully outwitted Friday night by a pair of lovers residing a few miles south of town. The young people were Mr. R V. Waldrup and Miss Rosa Cantrell. The groom secured the necessary legal documents in the evening and dispatched a trusted friend to drive out and if possible capture the bride and bring her in to her betrothed. This feat was successfully performed and Eld. J. M. McKinney's slumber briefly interrupted until Hymen's knot had been firmly adjusted by that clergyman in the presence of a number of witnesses in the parlar of the City hotel.

J. L. Aldridge, a well-to-do farmer living a few miles west of Plano was accidently shot through the hand one day last week with a 38 revolver.

A Notable Amusement Combination.

The old world has been ringing the praises to Sand's & Astley's Enormous Old and New World Railroad Shows which visited in Europe during its present grand tour around the world. Since its arrival in America the press of the United States is laden with panygerics and the opinion that it is head and shoulders above all other tented exhibitions seems to be unanimous. The circus department, we are told, presents an unusual number of meritorious acts and the grand double menagerie contains a large number of rare beasts, birds and reptiles. The hippodrome is said to be the most realistic and the curio department unusually attractive. These shows are to be at McKinney on Monday, Oct. 7.

Tuesday Oct. 22nd is prohibition day at the Dallas fair. Hon. Samuel A. Dickie, of Michigan, will speak on that day.

THE democratic campaign in Ohio was opened Saturday night at Columbus by Ex-Gov. Campbell.

COL. J. C. Bigger, of Dallas, says Tom Reed will deliver the address at the state fair on republican day, Oct. 25.

HECTOR D. LANE, president of the American Cotton Growers' Protective association advises farmers to hold their cotton and says the crop cannot exceed 6,500,000 bales maximum.

BAILEY'S wholesale slander of the poulists is evidence that he did not bury them as deep as he said he would at the last election. They are all here yet and keep Mr. Bailey badly scared all the time.—Jeffersonian Democrat.

A copy of Latham, Alexander & Co's. twenty-second edition of "Cotton movement and Fluctuations" has recently come to our table. The publication has become a standard on cotton and is a beautiful little volume mechanically.

Ex-Gov. Simon B. Buckner has published a card in which he says that he will support the entire democratic ticket except the Head, Wat Hardin who is clamoring for free silver on a gold standard platform.

BAILEY says that 90 per cent of pooulists are liars and that he is not sure of the other ten per cent for the reason that he does not know them.

BAILEY in his first race against Judge Hare wept great tears of anguish about the miserable condition of the laboring classes, but no sooner did he get to congress when he reached into he United States treasury (by his vote) and drew out $5000 per month clerk hire to add to his already extravagant salary.

ALLEN Thurman, Jr., pretends to be in love with free silver but gives it out that he will support the Ohio state democratic ticket which has at its head Governor Campbell, a gold bug and a gold bug platform. There is no sincerity in a great many free silver leaders and the voters should awaken to that fact and leave them.

No. 1, Vol. 1 of the People's Advocate, printed at Cedar Hill, Dallas county, reached our X table last week. Messrs G. M. and R. L. Russell editors and publishers; one of them with an experience of fifty years in the newspaper business. The Advocate is an "Advocate," indeed, of populism and pure government.

BAILEY, when he first started out in his first race for congress, chided Judge Hare and his associates in congress about their official and private extravagance, saying that $5000 per year was enormous as compared to the $200 made by the average farmer. In the midst of his tearful appeal for votes he declared that when he got to congress that he would live just as economical as he did in his humble home at Gainesville. Did he do it? No! In addition to receiving the extravagant salary of $5000 per year he voted $100 per month for extra clerk hire. Mr. Bailey says that 90 per cent of the populists are liars. If Bailey is a fair specimen of congressional veracity, what shall we say of our national lawmakers?

Stump Ashby before the Tarrant county populist quarterly meeting the other day said:

"Fusion! fusion! Nugent on the supreme bench! Why we are going to make a governor out Nugent (applause), and already less than 10,000 votes are needed with which to do it. There is no grander man than T. L. Nugent. He has the indorsement of every democrat of prominence in the state, both as a lawyer and as a man. The very throb of his great heart is one of love for the people. When our state convention meets in 1896 but one name will be before it for governor and that name Thomas L. Nugent, (Applause) He will be nominated by acclamation and with him at the head of our ticket we will sweep this state from the north to the south and from the east to the west. (Applause.) Why, already the good mothers of this broad land are naming their babies "Nugent" and not a day passes but what that name is bestowed upon babies in this land. His home is in the hearts of the people and with one loud voice they are crying out, 'Nugent for governor.'"

The Mount Lebanon Shakers have recently perfected an ingenious cure for dyspepsia. Their Digestive Cordial consists of a food already digested and a digester of foods happily combined.

The importance of this invention will be appreciated when we realize what a proportion of the community are victims of some form of stomach trouble. Thousands of pale, thin people have little inclination to eat, and what they do eat causes them pain and distress.

This Digestive Cordial of the Shakers corrects any stomach derangement at once. It makes thin people plump. Everyone will be greatly interested to read the little book which has been placed in the hands of druggists for free distribution.

Weak, Irritable, Tired

"I Was No Good on Earth."

Dr. Miles' Nervine strengthens the weak, builds up the broken down constitution, and permanently cures every kind of nervous disease.

"About one year ago I was afflicted with nervousness, sleeplessness, Creeping sensation in my legs, Slight palpitation of my heart, Distracting confusion of the mind, Serious loss or lapse of memory. Weighted down with care and worry. I completely lost appetite And felt my vitality wearing out, I was weak, irritable and tired, My weight was reduced to 160 lbs., In fact I was no good, on earth.

A friend brought me Dr. Miles' book, "New and Startling Facts," and I finally decided to try a bottle of DR. MILES' Restorative Nervine. Before I had taken one bottle I could sleep as well as a 10-yr.-old boy. My appetite returned greatly increased.

When I had taken the sixth bottle My weight increased to 176 lbs., The sensation in my legs was gone; My nerves steadied completely; My memory was fully restored. My brain seemed clearer than ever. I felt as good as any man on earth. Dr. Miles' Restorative Nervine is A great medicine, I assure you."

Because the BUCKSKIN BREECHES are the best jeans pants made it's natural to expect they cost more than other pants. That's a mistake. They cost no more than common grades. They fit better, wear better, look better, than any other make. If these things count, they're the cheapest pants made.

On last Tuesday, beginning early and lasting all day, friends were seen to meet all over McKinney without smiling and the usual "good morning" or "good evening" was left unsaid. THE ANTI-PRIZE FIGHT BILL

Wednesday, Oct. 2, the an-anti prize fight bill passed in the Texas legislature almost unanimously. This ends the great struggle in regard to prize fighting in Texas. The Corbett-Fitzsimmons fight will have to be pulled off on soil outside of the Lone Star state. It will be observed that every populist member voted for the bill.

SUICIDE.

Bud Fain, well known in McKinney, shot himself three times, Monday, through the heart, at a neighbor's house near Celina where he had left his sisters, ostensibly, to leave the community as he said to the neighbor that certain parties are "lying on me and I have got to leave and I want you to look after the children." He then mounted his horse, rode a short distance, dismounted and lay down on a clean spot beside the road and deliberately shot himself three times through the heart, in plain view of his startled friend.

Fain was an industrious young man and the support of a widowed mother and orphan family of brothers and sisters. One of the brothers is deaf and dumb and we understand has served a short term in the penitentiary, going from Denton county. This brother and Bud were once in the McKinney prison for a short while about four years ago, charged with a crime of which they easily proved their innocence.

These humiliations to his family kept agog by the persistent and tireless tongue of persecution, was too great a disgrace for his sensitive nature to endure and the unfortunate young victim sought deliverance in self-destruction.

Shepherd is very sanguine of the success of these monthly institutes and urges all teachers in the county to shape their affairs so as to attend every one of them.

Deafness cannot Be Cured.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and thir tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

PRICKLY ASH, POKE ROOT AND POTASSIUM

Makes Marvelous Cures in Blood Poison Rheumatism and Scrofula

P. P. P. purifies the blood, builds up the weak and debilitated, gives strength to weakened nerves, expels diseases, giving the patient health and happiness where sickness, gloomy feelings and lassitude first prevailed.

For primary secondary and tertiary syphilis, for blood poisoning, mercurial poison, malaria, dyspepsia, and in all blood and skin diseases, like blotches, pimples, old chronic ulcers, tetter, scald head, boils, erysipelas, eczema—we may say, without fear of contradiction, that P. P. P. is the best blood purifier in the world, and makes positive, speedy and permanent cures in all cases.

Ladies whose systems are poisoned and whose bloods in an impure condition, due to unnatrual irregularities, are peculiarly benefited by the wonderful tonic and blood cleansing properties of P. P. P.—Prickly Ash, Poke Root and Potassium.

SPRINGFIELD, Mo., Aug. 14th, 1893. —I can speak in the highest terms of your medicine from my own personal knowledge. I was affected with heart disease, pleurisy and rheumatism for 35 years, was treated by the very best physicians and spent hundreds of dollars; tried every known remedy without finding relief. I have only taken one bottle of your P. P. P., and can cheerfully say it has done me more good than anything I have ever taken. I can recommend your medicine to all sufferers of the above diseases.

To all whom it may concern: I hereby testify to the wonderful properties of P. P. P. for eruptions of the skin. I suffered for several years with an unsightly and disagreeable eruption on my face. I tried every known remedy but, in vain, until P. P. P. was used, and am now entirely cured.

Office of J. F. Greer, County Judge.
Green Cove Springs, Clay Co., Fla.
Gentlemen:—Twenty-three years ago I was attacked with inflammatory rheumatism; I was attended by the most eminent physician in the land; I visited the great Saratoga Springs, N. Y., and the noted Hot Springs of Arkansas, and many other watering places and always consulting the local physician for directions; finally came to Florida ten years ago. About two year ago I had a severe attack of rheumatism, was confined to my room for 12 weeks and during the time I was induced to try P. P. P. (Prickly Ash, Poke Root and Potassium) knowing that each ingredient was good for impurities of the blood, after using two small bottles I was relieved; at four different times since I have had slight attacks, and I have each time taken two small bottles of P. P. P. and been relieved and I consider it the best medicine of its kind. Respectfully,
J. F. GREER.

GOVERNMENT OWNERSHIP.

Every now and then something occurs which pays homage to some demand of the Omaha platform. If the Southern Pacific shall carry out its order to take off the through fast train from Ogden to San Francisco, reducing its service on that branch of the great continental road to a slow way train each day, there will be thousands of converts to the plank of the Omaha platform which calls for government ownership of railroads. It is when some gigantic and insolent corporation wantonly does an act which destroys properties of immense values and tramples upon rights that have practically become vested, that the public realize the power of the unchained monster, and the absolute necessity of putting it under restraint.

The prosperity of cities, the prices of products and the convenience of the public are more at the mercy of railroad corporations than of any other power or agency. By discriminating in rates they build up one locality and pull down another; by rebates and secret reductions to favored firms and companies they advance some to millionaires and reduce numbers to beggary; by extortionate freight rates they render the products of the soil worthless, or at best reduce them to fuel or feed for animale; by combination they control congress and state legislatures and name the laws which they permit to be enacted. The vast aggegated wealth of railway companies, combined and directed against every interest than their own, has become a dangerous menace to the peace of the country and perpetuity of free government.

The Southern Pacific in its last move emphasizes this tremendous power of the railway syndicate and arouses the people to the ever-present danger of its being invoked. It laughs at the threat that the government may assert its right and run both the Union and Central Pacific roads; because, it says, neither these roads nor the government have terminal facilities in San Francisco. At the whim of this robbing tyrannical corporation, states and territories stand agnic stricken before the prospect of loss to their vast interests by its wanton, selfish and unwarranted act.

Government ownership of railroads is not a bad thing to think about, and it is about the right thing for the people to demand and enforce.—Denver News.

The new ethnological congress which the Barnum & Bailey show exhibit this year in connection with the myriad other features, deserves the special attention of the student. Contrasted with the inhabitants of the antipodes are a splendid collection of the natives of North and South America, such as Muras, Navajoes, Moquis, Cliff-dwellers, Mohaves, Apaches, Canjones, and others. There are also Turks, Armenians, Samoans, Singhalese, Nubians, Arabs, Soudanese, and many more types of strange and savage people. They will all be here with the circus on the 17th inst.

The editor was dying, says an exchange, but when the doctor bent over him, placed his ear to his breast and remarked, "Poor man, circulation almost gone!" the dying man rose and said: "You're a liar, we've got the largest circulation in the county."

CHRONIC MALARIA.

A Very Prevalent Disease Following the Hot Summer of 1895.

The continuance of hot and dry weather is sure to produce the prevalence of chronic malaria The past summer has been exactly suitable for the production of a great deal of malaria. Even in localities where malaria has been previously unknown many cases are developed. This form of malaria is distinguished from the old-fashioned fever and ague by the insidiousness of its attack and the difficulty with which it is cured. It does not come on quickly, like chills and fever. The symptoms pester and provoke sometimes for several weeks before the patient is made sick enough to take medicine.

Slight, chilly sensations, cold, sweaty spells, frontal headache, biliousness, furred tongue, bad taste in the mouth, sticky mucuos in the throat, constipation, languor, etc.

A medical treatise on chronic malaria will be sent free by the Pe-ru-na Drug Manufacturing Company of Columbus, Ohio. This book is a complete guide to the prevention and cure of malaria in its various forms. Pe-ru-na has long since been recognized as the only infallible cure for the chronic form of malaria. While quinine has become the standard remedy for acute malaria, commonly called fever and ague, many people have found by bitter experience that it will not cure the chronic form. Pe-ru-na cures these cases promptly and permanently.

TREACHEROUS FLOP

Of Democratic Demagogues to Fool the People.

"FREE SILVER AT 16 TO 1"

Has Never Been in the Democratic Creed, or Sustained by a Democratic Congress.

The peoples party is due the credit of agitating this money question for years past. It is the only national party that ever declared for 16 to 1 or any other ratio and in all its efforts to arouse the people on this vital question it has had to contend with both the old parties. Now that the people have become fairly educated and are beginning to understand not only the cause of their misfortune, but also, who are responsible for them, the treacherous old democracy flops over and pretends to be silver's best and only available friend. This claim is wholly unfounded any unprejudiced man will understand when he examines the record made by the party. Here it is:

1st. The 49th congress having a democratic majority of 42 on April 8th, 1886, killed a bill providing for the free and unlimited coinage of silver at a ratio of 16 to 1.

2nd. The 52nd congress having a democratic majority of 148 on the 24th day of March, 1892 killed a free coinage bill at a ratio of 16 to 1.

3rd. The same congress on July 1st of the same year overwhelmingly defeated another free coinage bill, 16 to 1, after it had passed a republican senate and when it was understood that a republican president, although individually opposed to free silver had said he would approve it if passed by the democratic house.

4th. On the 23rd of August, 1893 the 53rd congress called in extra session by Mr. Cleveland and defeated a bill providing for the free coinage of silver at 16 to 1 by a two-thirds vote. This congress had a democratic majority over both republicans and populists of 83, but the ten populists voted for the bill, thus making the democratic majority, if really in favor of free silver, 103 over the republicans.

There were 217 democrats on the floor of the house when this vote was taken and 101 voted for the measure and 116 voted against it so that it will be seen that if nobody but democrats had been present and voting the bill would have been defeated by a majority of 15.

5th. On the srme day, namely, August 23rd, 1893, this same democratic congress voted down a second proposition to coin silver at a ratio of 17 to 1 by a still larger majority.

6th. On the same day this same congress voted down another propositjon looking to the parity of both metals at 18 to 1.

7th. On the same day another bill providing for the free coinage of silver at 19 to 1, was defeated.

8th. On the same day another proposition looking to the free and unlimited coinage of silver at a ratio of 20 to 1 was snowed under in a democratic house.

And thus it was that five bills providing for the free and unlimited coinage of silver was beaten in a representative body now professing to be the friend of the white metal as fast as the clerk could call the roll. And don't forget, honest democratic reader, that in every solitary instance a majority of your democratic congressmen voted against silver and in favor of the single gold standard.

9th. On November, 1st 1893, the 23rd congress with its 83 democratic majority over all voted down an amendment offered by Mr. Bland to a pending bill which amendment provided for the free and unlimited coinage of silver at 16 to 1.

10th. On October 27th, 1893, the United States senate having a democratic majority of three over all, and when the four populist senators were counted for silver, the majority over the republicans was 11, defeated Senator Stewart's amendment providing for the free coinage of silver at 16 to 1.

11th. In Feb., 1895. the 53rd congress being in session with a democratic majority in both Houses and a democratic (so-called) executive the finance committee of the senate, with Dan Voorhees chairman and a majority of democrats on the committee, killed in the committee room the last proposition made for the free coinage of silver at 16 to 1.

Thus it will be seen that in nine years the democratic party in congress has killed eleven free silver bills and wholly failed and refused to rebuke the "crime of '73."

When the party had the power to restore free silver it refused. Now that it is powerless to do anything its leaders, especially in the south, are profuse in promises of what they intend to do next time. The man who says he believes they are in earnest this time is either a credulous idiot or knowingly aiding in making another platform to "get in one" and wilfully deceive the public.

The 13-year-old son of G. L. Wilson, Navarro county, met a horrible death by a mass of hot brick from a boiler, near which he was working, falling upon him.
